ABOUT US

The Grief Training Center of Wisconsin was created to teach people how to better support another person during one of the hardest times in their life: mourning the loss of a loved one.

We believe it's best support others by being truly present in a way that is healing, nourishing and empowering, and recognizing how grief impacts one's mind, body, heart, and soul.

We strive to help professionals and volunteers improve their balance, confidence, and optimism while supporting others through their grief journey.

MISSION

Our mission is to strengthen and expand a community of companions to the bereaved, and bond people together through compassion and service.

"The most valuable part of the training was the change in me."
